

# Southern California Botanists

Join today!

-Annual symposium, in October, SCB hosts a one-day symposium and catered banquet. Covering various aspects of California plants, communities, and regions. It's a great way to meet other botany enthusiasts and experts.

-Field Trips and Workshops, hosted by experienced botanists and biologists. Field trips extend into Baja California.

-Grant opportunities, for students and professionals pursuing work in California botany;

- SCB Annual Grant
- Susan Hobbs Grant for Field Research
- Alan Romspert Grant for Desert Botany

-Crossosoma, published twice a year. Topics may include taxonomy, historical botany, invasion biology, pollination ecology, habitat restoration, vegetation science, biogeography, lichenology, bryology, phycology, and mycology. Members are encouraged to submit articles.

Join **SCB** today!

*SCB was founded in 1927, Crossosoma californicum is the logo and the name of the biannual journal publication*

*The journal Crossosoma, published twice a year, carries articles of interest to both amateur and professional botanists.*
